EDUCATION

University of California, San Diego

2025 - 2030	Ph.D. Cognitive Science - HCI	(Advised by Prof. Steven Dow)
2023 - 2025	M.S. Computer Science and Engineering - HCI & Graphics Key Courses: HCI, AI, Computer Vision & Graphics, Collective Intelligence, User-centered Design Theory, UbiComp	(Advised by Prof. Steven Dow and Prof. Tzu-Mao Li)
2019 - 2023	B.S. Data Science & B.S. Probability and Statistics - minor in Economics Key Courses: 3D Machine Learning, Scalable Analytics, ML Systems, Probabilistic Reasoning, Robotics	(Advised by Prof. Judith Fan)

ACADEMIC EXPERIENCE

2024 - Now	UC San Diego Design Lab - Graduate Researcher (Advised by Prof. Steven Dow)	La Jolla, CA, USA
Led research projects to design novel design-support interfaces to assist novice designers with idea divergence and convergence in individual and collaborative settings. The studies investigate how to enhance generative models using faceted meta-information structures to decompose design		

dimensions, thereby aiding designers' explorations. They also examine methods to encourage idea convergence in collaborative design environments [4, 5].

2023 - 2025 **UC San Diego Visual Computing Group** - Graduate Researcher *La Jolla, CA, USA*
(Advised by Prof. Tzu-Mao Li)

- Combined neural methods with traditional graphics pipelines to enable flexible, physically informed forward and backward interaction prediction. Leveraged diffusion-based models to study discontinuity-aware super-resolution and compression techniques. Assisted in running experiments on novel neural heat-diffusion-based loss terms for signed distance functions (SDFs), achieving state-of-the-art performance across multiple 2D and 3D SDF-related benchmarks, including surface reconstruction [3].

2022 - 2023 **UC San Diego Halicioğlu Data Science Institute** - Undergraduate Researcher *La Jolla, CA, USA*
(Advised by Prof. Yusu Wang)

- Contributed to developing and implementing a novel graph neural network architecture that captures long-range interactions in graph-structured data, achieving performance comparable to or superior to established models on selected datasets while offering notably increased efficiency. Present the senior capstone and HDSI scholarship poster session - [GraphHSCN](#).

2021 - 2022 **UC San Diego CogTools Lab** - Undergraduate Researcher *La Jolla, CA, USA*
(Advised by Prof. Judith Fan)

- Contributed to the design and generation of 3D stimuli illustrating both rigid and non-rigid physical interactions. Conducted data analysis to quantitatively compare the physical understanding of state-of-the-art vision models with human perception, aiming to identify key limitations, suggest promising directions for future research, and provide vision ML researchers with a comprehensive benchmark dataset for evaluation. Additionally, assisted in building the online evaluation website to collect human-prediction data on physical stimuli [1, 2].

WORKING EXPERIENCE

2026 **Autodesk** - PhD Intern, AI Research - Datasets & Benchmarks *Remote*

- Work on a better human-centered evaluation for 3D CAD.

2023 **SchedGo** - Data Engineer *Remote*

- Built the data infrastructure for product analytics and ML algorithm using Firestore;
- Conducted marketing data analytics to identify key user groups for promotion efforts;
- Designed a survey model for the front end to gather more direct user feedback.

2022 - 2023 **San Diego Supercomputer Center** - Deep Learning Engineer Intern *La Jolla, CA, USA*

- Used Ray Tune to test scalable multi-GPU hyperparameter tuning on HPC infrastructure;
- Investigated data-centric MLOps solutions to make experimentation more time and resource-efficient.

2022 **Tesla** - Data Scientist Intern *Fremont, California, USA*

- Investigated lossless image compression solutions, saving ~20% of annual image storage;
- Built and deployed end-to-end process-agnostic advanced statistical process control and quality disposition tools with automatic alert systems; continuously monitored & improved based on user feedback from the process engineering team;
- Conducted data analyses on various datasets to identify root causes & validate model performance.

2021 **Bühler Group** - Data Scientist Intern *Wuxi, Jiangsu, China*

- Researched and initiated the effort to build an Image-Labeling MLOps feature in our B2B product prototype to optimize the model adaptability for defect detection;
- Prototyped an MVP using Figma & Angular and got praise from the Director of Innovation;

- Crafted new IoT analytics to understand users' experience better when creating a digital twin.

2021 **J.D. Power** - Analyst Intern *Shanghai, China*

- Refined the quality analytics team's workflow by automating data processing and report pipelines, saving more than 200 analytics hours/ year;
- Provided detailed Git documentation to ensure consistent use among non-technical teammates.

2020 **Bosch** - Data Analyst Intern *Wuxi, Jiangsu, China*

- Provided effective data analysis and visualization on Tableau for continuous monitoring of data and parameter tuning to gain valuable analytic insights based on the Bosch Industry 4.0 transformation roadmap;
- Reduced manufacturing bottlenecks, diagnosis, and insight extraction time by 80% for manual inspection and analysis by algorithmically suggesting optimal parameters;
- Presented dashboards to the Director of Manufacturing Analytics Solutions.

RESEARCH MENTORSHIP

2025-2026	Shreya Krishnamurthy , B.S. UCSD	[P5]
2025-2026	Erin Huang , B.S. UCSD	[P5]
2025-2026	Suma Vintha , B.S. UCSD	[P5]
2025-2026	Domonick Marshall , B.S. UCSD	[P5]
2024-2025	Kiruthika Marikumaran , B.S. + M.S. UCSD	[P5]

ACADEMIC SERVICE

2026	IEEE Computer Graphics and Applications 2026 Journal Reviewer (1 paper) UIST 2026 Full Paper Reviewer (5 papers; Special Recognition for 2 + Highly Useful for 2) Human-Computer Interaction 2026 Journal Reviewer (1 paper) CHI 2026 UCSD Happy Hour Party Co-organizer C&C 2026 Full Paper Reviewer (2 papers; Special Recognition for 1) DIS 2026 Full Paper Reviewer (2 papers; Special Recognition for 1) CHI 2026 Full Paper Reviewer (8 papers; Special Recognition for 3 + Highly Useful for 1) UCSD Design Lab Weekly Research Meeting 25-26 Annual Organizer
2025	CI 2025 Extended Abstract Reviewer (1 paper) + Student Volunteer CHI 2025 Late Breaking Work Reviewer (2 papers) DIS 2025 Work-in-Progress Reviewer (1 paper) UCSD Design Lab Weekly Research Meeting 24 Fall Quarter Co-host

VOLUNTEERING

2025 - Now	GradWIC @ UCSD - Mentor <i>La Jolla, CA, USA</i> • Mentored CSE master's & undergrad students in research, careers, and grad school preparation.
2025 - Now	Colors of the Brain @ UCSD - Mentor <i>La Jolla, CA, USA</i> • Mentored underrepresented undergraduates into neuroscience research roles and PhD pathways.
2021 - 2022	Halicioğlu Data Science Institute @ UCSD - Data Science Student Representative <i>La Jolla, CA, USA</i> • Peer-advised undergraduate students; evaluated and improved the data science curriculum; promoted the program to external audiences.

2021 - 2022

Mentor Collective @ UCSD - Mentor

La Jolla, CA, USA

- Mentored first-year and transfer students; provided guidance and support for adapting to university life; connected students to campus resources and communities.

SKILLS

HCI	User-Centered Design, Interaction Design, Prototyping, Interview, Quantitative Methods, A/B Testing
Data Science	Scalable Analytics, Data Visualization, MLOps, Recommender System, Data Mining, Database
AI/ ML	LSTM, GAN, Diffusion Models, GNN, NeRF, 3D Gaussian Splatting, Reinforcement Learning, LLM
Software	Python, R, SQL, Angular, D3.js, PyTorch, Clickhouse, Firestore, DevOps, Agile, AV/ VR
Mathematics	Probabilistic Reasoning, Descriptive and Inferential Statistics, Stochastic Processes

TEACHING

2026 Spring	COGS 125 Advanced Interaction Design - TA with Prof. Scott Klemmer	UCSD
2026 Winter	DSGN 1 Design of Everyday Things - TA with Prof. Michael Meyer	UCSD
2025 Summer	COGS 187A Usability & Info. Architecture - TA with Prof. Mary ET Boyle	UCSD
2025 Summer	COGS 186 Genetic Algorithms - TA with Prof. Anjum Gupta	UCSD
2025 Winter	DSGN 1 Design of Everyday Things - TA with Prof. Michael Meyer	UCSD
2024 Fall	DSGN 1 Design of Everyday Things - TA with Prof. Michael Meyer	UCSD
2024 Summer	CSE 175 Entrepreneurship for Engineers - TA with Prof. Rakesh Kumar	UCSD
2024 Spring	DSGN 1 Design of Everyday Things - TA with Prof. Scott Klemmer	UCSD
2024 Winter	COGS 9 Introduction to Data Science - TA with Prof. Meenakshi Khosla	UCSD

HONORS & AWARDS (& REJECTIONS)

2026	MSR AI and the New Future of Work CFP [Rejected Once, Accepted Zero Times ;)]
2026	MSR Fellowship [Rejected Once, Accepted Zero Times ;)]
2026	YC AI Student Starter Pack (~\$25,000 in free credits for AI tools and cloud services)
2025 - 2031	SHORE Fellowship, UCSD (~\$70,000 in value & 3 recipients @ CogSci Department annually)
2025	OpenAI Researcher Access Program (~\$1,000)
2023 - 2024	IGE Shah Fellowship (\$5,000 & 2 recipients @ UCSD annually)
2023	The Cornell, Maryland, Max Planck Pre-doctoral Research School Fellowship (3,000\$ & ~60 global recipients annually)
20 Spr, 22 Win	TRELS Research Scholarship, AEP (\$1,000 * 2 & ~75 recipients @ UCSD quarterly) [Rejected Twice]
2021, 2022	HDSI Research Scholarship, UCSD (\$2,500 * 2 & ~30 recipients @ HDSI Department annually) [Rejected Once]
2019 - 2023	Provost Honor, UCSD (\$0, but it sounds cool 😊 & ~20% students @ Warren College annually)

Note:

(I include all my rejections on my CV following the steps of the awesome [Bradley Voytek](#) [[his CV](#)]. He said that would inspire more people to be ok with rejection, and I agree.)
